In my garden I have a purple mat in front of my door. There are two vases beside the mat. When I walk out of my door I hear wind and splashing because I have a water fountain in my garden. Right beside my water fountain I have an apple bush. The apples are very shiny. In my garden the sun is always shining. On my grass I don't even have to wear shoes because it is so soft. There is a purple butterfly who always comes in my garden. She even talks. There is a blue bird who always drinks my fountain. The sky is always blue in my garden. In my garden I feel happy and safe. In my garden I see a blue, purple, dark green and pink. And even I have a little bit of yellow. I smell flowers and spray. My garden has small bushes and medium flowers. I love my garden.

My Garden

By Ms.Wood

My garden is a beautiful place where I can go day or night. There are tall leafy trees with branches that reach the sky. The deep green leaves provide shade for me when the hot, yellow, sun is burning. On the ground the soft grass is so thick under my feet I feel like I am walking on clouds. Little pink and purple flowers grow close to the ground making the ground smell like perfume. When I sit in my garden I listen carefully to the soft sound of buzzing. If I get hungry I can pick a bright, round orange from a tree or pick a plump red raspberry from a bush.

When I am thirsty I can take a sip from the splashing fountain in the middle of my garden. In the evening I like to sit in my garden under the stars and watch the fireflies dance by me. My garden is a special place and when I am there I feel safe and happy.
